ROOTED IN
ANALYTICS

Training | Consultancy | Placements

VISION statement

“Creating a talent pool of Data Analytics professionals and enable them to navigate a successful career in tomorrow's data-driven decision making world”

Our unique training program integrates theory and hands-on practice along with extensive industry experience to help you building a strong foundation in Data analytics

WHY Data Analytics?

01

Data Driven decision making supported by Analytics has become an essential capability to any organization

- ▶ Analytics is on top most priority for every CEO of fortune 500 companies

Analytics sector is the key emerging area of the future and growing rapidly

- ▶ Size of big data and analytics industry is to be \$190 billion by 2019

02

03

Data Analytics is most sought-after career choice and there is a spurt in demand for jobs

- ▶ Currently, only 40% of the demand is met
- ▶ Analytics professionals earning 50% more than Software/ IT

Both academics and industry are gearing up to catch the opportunity

- ▶ All reputed institutes IITs/ IIMs already offering courses on analytics and upskilling UG students
- ▶ Corporates are heavily focusing on training

04
